

TSERING T. GURUNG

Memphis, TN / Open to Relocation / Remote • 662-497-6711 • tseringtas516@gmail.com • linkedin.com/in/ttgurung7

SUMMARY

PhD candidate in **Information Technology (AI focus)** with an **MBA**, specializing in **business analytics, operational intelligence, and AI-driven decision support**. Experienced in building KPI dashboards, forecasting models, and automated reporting workflows that translate data into executive-ready insights seeking **Business Analytics, Strategy/Ops Analytics, or AI & Operations** internships.

CORE SKILLS

Analytics & Programming Python (pandas, NumPy), SQL, Advanced Excel	Applied AI & Analytics Forecasting, Clustering/Segmentation, Predictive Modeling
Business Intelligence Power BI, Tableau, KPI Dashboards, Data Modeling	Automation & Systems ETL/Data Pipelines, Workflow Automation, Git/GitHub
Statistics & Experimentation Hypothesis Testing, A/B Testing, Model Evaluation	Business & Communication Financial & Operations Analytics, Data Storytelling, Executive Reporting

EXPERIENCE

Data & Analytics	Leadership Memphis Memphis, TN	Jan 2026 – May 2026
- Performed database cleanup and data-quality improvements in Blackbaud CRM to improve reporting accuracy and usability - Built and refined Power BI dashboards to increase leadership visibility into operational KPIs - Developed automations to streamline recurring reports and reduce manual workload - Collaborated with cross-functional stakeholders to translate operational needs into practical analytics solutions		

APPLIED BUSINESS & ANALYTICS PROJECTS

Executive KPI Dashboard & Reporting Automation - Designed an executive KPI dashboard spanning finance, sales, and operations metrics with drilldowns and filters - Built automated data ingestion/cleaning workflows (SQL → Python → BI) to support reliable refreshes - Produced executive-ready insights and recommendations in plain language (trend drivers, anomalies, opportunities) <i>Tools: SQL, Power BI, Python, Excel</i>
AI-Driven Revenue & Demand Forecasting (Decision Support) - Developed forecasting models to support quarterly planning and inventory/revenue scenarios - Compared model performance and communicated uncertainty/risk to business stakeholders - Translated outputs into business actions (capacity, staffing, budgeting) using clear visuals <i>Tools: Python, pandas, scikit-learn</i>
Customer Segmentation & Growth Strategy Analysis - Segmented customers using clustering and profitability/behavior features to identify growth opportunities - Built segment profiles and recommended targeted retention/pricing strategies - Delivered results via dashboards and a concise executive memo <i>Tools: Python, pandas, scikit-learn, Tableau</i>
Operational Efficiency & Process Optimization - Mapped reporting workflow and identified bottlenecks; implemented automation to reduce cycle time - Created standardized reporting templates and QA checks to improve consistency and accuracy <i>Tools: Python, Excel, SQL</i>

EDUCATION

PhD, Information Technology (Focus: Artificial Intelligence) University of the Cumberland	2022 – Present
Focus: Applied AI, Business Analytics, Decision Support Systems	
Master of Business Administration (MBA) University of Mississippi GPA 3.90	2020 - 2021
Bachelor of Business Administration Mississippi University for Women GPA 3.86	2016 - 2020
